About me

Since May 2023, I have been working as a junior front-end developer. Since February 2023, I have been developing my skills in Vue and Nuxt 3. In 2022, I completed a 10-month Full-Stack Developer course (main languages React and NodeJS). Programming has become my passion and a new path of development. I love learning new skills. Working with others is the best way to learn. Looking for developer? Let's talk!
