

MARCIN BIENIEK

JUNIOR WEB DEVELOPER
FULL STACK (MERN)

about

I had experience as a project manager on IT projects. I was also a copywriter, specialized in SEO. In 2023 I've completed Full-Stack Developer course and now I'm growing my skills in software development. That became my new passion and career path. I love to learn new skills, and there is no better way to learn that by working with others.
